DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 4, line 19, --Figure 4 illustrates a machine vision system according to another embodiment of the present invention—has been inserted.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a machine vision system having, inter alia, a processor coupled to an addressable first lighting system and adapted to transmit first lighting command signals to modulate the light, said addressable first lighting system being configured to distinguish the first command signals from other information transmitted by the processor (claim 2); or a first lighting system adapted to produce light in response to at least one lighting command signal and a processor adapted to receive the at least one lighting command signal and modulate at least one of the first light component and the second light component in accordance with the at least one lighting command signal (claims 23 and 33); a method of illuminating an object for use with a machine vision system having, inter alia, steps of illuminating the object with a first light and a second light in accordance with at least one first addressed command signal and modulating

said at least one light (claim 12); or transmitting a first lighting command signal from a second processor to a first processor and modulating at least one light with the first processor in accordance with the first lighting command signal (35). The remaining claims 3-11, 13-22, 24-32 and 34 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 2 through 35.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
